

The Aysgarth Boarder Week 8 09/10

The Circus is in Town!

On Sunday morning straight after chapel first, second and third formers went to the new hall. When we got there we met Jay who was going to teach us how to do circus tricks such as plate spinning, juggling and Diabolo. It was really good fun and at the beginning Jay showed us some tricks. He did a trick and changed a two pence coin into a two pound coin and he hypnotised Jack W-W. He explained that you are always being hypnotised when you talk to someone.

In the afternoon it was the turn of the seniors and they did similar activities but also got the chance to try walking on stilts.

Our favourite part was trying to juggle and playing with the diabolo.

Thank you to Dr. Canning and Sarah for supervising us and thank you to Jay for coming into school and working with us.

Andrew Stembridge and Alfie Carter

Art 09/10

On Sunday afternoon there was an art activity in the art room run Sarah. It was great fun. We were making flying bugs and these were like little polystyrene planes, which we had to colour in first. The second activity was sewing a Christmas stocking. This was fun and very festive. The third choice was making a bat and ball game and these were fun to play with. The last activity was painting a stain glass window with glass paints. I made a stocking with a Father Christmas face on it. Thank you to Sarah for a busy afternoon.

School Council Meeting 09/10

Last Wednesday evening the School Council met in the dining room with Mr. Barlow, Mrs. Goddard, Heather and Clive. The purpose of the evening was to taste bread, cheese and soup before it is added to the school menu.

The School Council have regular tasting evenings to decide which are the best foods to be added to the school menu. In the past we have tasted sausages and selected the ones we would like buying.

I had my opinion chosen about the choice of bread being offered. I chose bread with poppy seeds and it appeared on the menu the next day!

The soups were good and we hope to have tomato and leek soups added soon.

The School Council enjoy giving their opinion and the opportunity to have our say.

Ralph Assheton
